

MEDICAL TESTING IS A TRAP INTO SLAVERY

G-D ALMIGHTY'S MESSAGE

- 1) G-d Almighty is the G-d of abundance
- 2) Hear O' Israel, the L-rd our G-d, the L-rd is One (Deuteronomy 6:4) – there is nothing other than G-d Almighty. (Deuteronomy 4:35; Isaiah 45:5)
- 3) G-d lovingly takes care of all His Creations, providing everything every creature needs.
- 4) For I am the L-rd your healer (Exodus 15:26). Health and healing comes from G-d Almighty.
- 5) In G-d's world, the air does not kill, you won't die from breathing the air, you can't kill others from breathing, you are meant to be in close contact with other human beings, especially family.
- 6) All humans are essential and all moral means of making a living are essential.
- 7) Spiritual Freedom by keeping G-d's Laws brings physical freedom:

- | | |
|------------------------|--|
| a. Don't worship idols | e. Don't steal |
| b. Don't curse G-d | f. Don't eat the limb of living animal |
| c. Don't murder | g. Set up courts of justice |
| d. Don't be immoral | |

Why Coronavirus is mostly likely not a threat to you and your family

- 1) The risk of death is close to zero for children, for someone under 70 years old who actually comes down with the virus there is still a 99.85% chance of beating it, which is less than the risk of dying from pneumonia. Over 70, it's most dangerous to leave them alone and in the hospital.
- 2) Many people died unnecessarily in the nursing homes and hospitals for lack of care, isolation, lack of food and water, wrong treatment with ventilators and toxic drugs
- 3) Koch's postulates (for blaming a pathogen as a cause of illness) have never been established. This means there is no proof that COVID-19 causes Coronavirus.

FEAR IS THE OPPOSITE OF CONNECTION TO G-D

- 1) Do not be afraid of sudden terror or the destruction of the wicked when it comes. (Proverbs 3:25)
- 2) Don't rely on, don't be afraid of human beings.
- 3) Fear and scarcity is a tool used by the Cult of Scarcity to drive you into slavery so others make decisions for you.
- 4) Don't isolate – it's not healthy for you and your family.
- 5) Don't watch the news. It's developed to cause you to react in fear and do what you are told and think that you are at risk and the only people who can save you is the government and doctors.
- 6) Watch how you are being controlled, told how to live, breathe, who to meet, when and where you can go, etc.
- 7) Fear is the tool used by the Communists and Nazis to breed compliance and obedience. The Nazis were a very efficient public health program focused on eliminating lives unworthy of life, the unhealthy and disabled.
- 8) The media reports cumulative 'cases' in the millions even though most cases have already recovered and 2020 overall deaths were lower than 2018.
- 9) "We don't know" is used by 'experts' to terrify you.
- 10) You are being scared into "knowing your status" by testing frequently.

Why testing is unnecessary and not good for you, your family and your community

- 1) Tests are not reliable – it may report you as positive when you are not.
- 2) Tests create more "cases" which creates more panic which then leads to more control.
- 3) If you are positive, you won't be able to work, go to school, etc., even though you are completely healthy.
- 4) It leads to contact tracing where the government wants to know all your contacts and then try to force those people to quarantine even though they are healthy.
- 5) The WHO wants to quarantine people outside their families. In some countries, positive people are removed from their homes. That could happen in the US.
- 6) A global testing infrastructure is being built – every person will be tested at least once every five weeks for COVID, variants, and "other threats." In some places testing will be done multiple times per week.
- 7) This is building a public health regime where you have to prove you are 'healthy' to go to work, school, visit other people, travel, shop, etc.
- 8) You have an absolute right not be tested and not to test your children.

Why Taking the Shot is not for your benefit

- 1) Now you are being 'encouraged' or 'mandated' to take a new type of vaccine which plays with your genetic mechanisms, really a genetic code injection. Your spiritual leaders, doctors and media have been primed to promote it.
- 2) If you give in and take the first shot, you will be told you need to take a second, third, fourth, fifth, shot, and so on, forever.
- 3) You will soon discover that even with the shot you still need to mask and comply with endless public health orders and restrictions.
- 4) The shot is not needed for the individual nor the community, it is not effective for the individual nor the community and it has not been established as safe.
- 5) If you are concerned about your health and well-being there are other effective and proven ways to keep yourself healthy and restore your health, which men, women and children have effectively used for thousands of years. After all, look how many healthy thriving humans are alive today.

The Real Goal of Public Health is Promoting Fewer Children

- 1) Small-minded, fearful and cowardly men promote the false idea that there are too many people in the world and promote eliminating or reducing the number of children born and those already alive.¹
- 2) Such men deny that G-d Almighty does and can provide for every man, woman and child.
- 3) Leaders in the anti-child movement include the World Health Organization and the Centers for Disease Control and public health professors. They especially target for population reduction minorities in the US and children in poor countries in Africa, Asia and Latin America.

The Real Goal of Public Health is Promoting Fewer Children (cont'd)

- 4) Such small-minded men promote the elimination of 'unwanted' people both before birth and after birth.
- 5) But, G-d Almighty wants every child.
- 6) The goal of today's public health control is to create the systems where the government can regulate how many children are born and who can live and who must die and when. In other words, to create a system to implement the ideologies long taught in universities.²
- 7) Many of the US public health doctors and researchers pushing Communist China style totalitarian control in the United States in response to COVID, are paid consultants to, and employees of, the Communist Chinese government. They use fear so you agree to Chinese Communist control measures in the US. China uses doctors and nurses to enforce its one or two child policies in which any child over the allowance is murdered. That is what they seek in the United States also, G-d forbid.
- 8) In reality, children are a Divine blessing and every man is commanded by G-d Almighty to establish a family and bring as many children into the world as possible.
- 9) The world population is merely 8 Billion because in the last 100 years over 500,000,000 were eliminated by the population reduction of the Socialists – Communists and Nazis – death far greater than any virus could possibly do. Evil men only accomplish this by controlling and disarming and using health measures to spread fear, distrust and compliance, culminating in elimination of 'lives unworthy of life,' may G-d Almighty defeat their evil designs. Powerful governments are the real threat.
- 10) G-d Willing we will see men, women and children shake off the propaganda against having children and instead they will be fruitful and multiply as G-d Almighty commands and blesses and we will see the world population reach and exceed 80 Billion. As the people increase, G-d Almighty will reveal new ways to thrive with abundance.
- 11) Start now by saying no to control measures and yes to G-d Almighty. Sign up at RabbiSmith.org.

"We will not comply with medical coercion and destruction of human lives."

¹ Techniques include falsehoods that big families of the past were only because of farm labor needs or infant deaths, that children are an environmental hazard, promoting 'family planning', abortion, non-reproductive activities, rendering the body unable to reproduce, abortion, euthanasia of the ill, elderly, disabled, unhappy and unproductive, wars, manufactured famines. and genocides. *There are 70 million abortions per year, 12 times the Holocaust per year! Every person is worth reproducing, every baby is worth delivering and every life is worth living.*

² See for example, *The Growth of World Population Analysis of the Problems and Recommendations for Research and Training*, The National Academies of Science, Engineering and Medicine (1963).
